

# ACETIC ACID 60%

(Organic Acid)

## PRODUCT USE:

**ACETIC ACID 60%**, a material of acid nature. It is used by laundries to neutralize any traces of alkali that cannot be rinsed from the fabrics on a practical basis or to neutralize the bicarbonate alkalinity in the water supply and in some cases for the removal of iron stains on fabrics.

## PRODUCT DESCRIPTION:

Appearance: Clear colorless liquid with pungent odour.  
S.G.: 1.03 – 1.05

## DIRECTIONS FOR USE:

Because of the varying amounts of alkali remaining in the final bath in a washing cycle, it is impossible to give a definite recommendation, however with a **ACETIC ACID 60%** the bicarbonate will be 100% neutralized when a pH of 5.4 is reached.

Ref. No. 12/17

## PRECAUTIONS:

Keep out of reach of children. Flammable

## FIRST AID:

- Externally: In case of contact, immediately flush skin with plenty of soap and water for at least 15 minutes. Remove contaminated clothing.
- Eyes: In case of contact, immediately flush eyes with plenty of water. Get medical attention immediately after flushing.
- Internally: Do not induce vomiting. Slowly dilute with 1-2 glasses of water or milk. Get medical attention.
