

MAGNUS 645

HEAVY-DUTY ALKALINE CLEANER

PRODUCT USE:

Magnus 645 is used to remove carbon, light rust, grease and paint from ferrous metals.

ADVANTAGES:

- Safe to use.
- Removes lead deposits.
- No hydrogen embrittlement.
- Long tank life.
- Recommended for cleaning bogies on rolling stock.

PRODUCT DESCRIPTION:

Appearance: Granular light brown lumpy powder.
Ingredients: A blend of alkaline, sequestrants and wetting agents.
pH (1% solution): <12.0

DIRECTIONS FOR USE:

Magnus 645 is used at concentrations between 100 - 300 grams per litre cold water. Operating temperature of the tank should be between 80 - 90 °Celsius. Agitation equipment is recommended. A pressure spray is desirable after cleaning.

Note: Do not use product to clean aluminum. Always add product to cold water to avoid "geysering".

Ref. No. 11/17

PRECAUTIONS:

Product is highly alkaline. Keep out of reach of children. When handling product, safety goggles and rubber gloves should at all times be worn.

FIRST AID:

Eyes: Flush with plenty of cool running water. **GET MEDICAL ATTENTION IMMEDIATELY!**
Internally: Drink large amounts of water. **GET MEDICAL ATTENTION IMMEDIATELY!**
