

# STAINLESS STEEL CLEANER

A YELLOW JELL/PASTE FOR REMOVAL OF WELD "BLUE" AND  
MILL SCALE FROM STAINLESS STEEL SURFACES

## PRODUCT USE:

**Stainless Steel Brightener** is an acidic stainless steel brightener specifically formulated for the removal of mill scale and weld "blue" to leave a bright, clean surface. Surface must be free from oil or grease before brightening.

## ADVANTAGES:

- Easily applied by brush or spatula.
- Readily adheres to work surface to give optimum contact time.
- Very quick - normal application time 5 - 10 minutes.
- Gives a bright finish.

## PRODUCT DESCRIPTION:

Appearance: A yellow paste/jell

Ingredients: An inhibited acid mixture, in jell form. **Highly acidic.**

## DIRECTIONS FOR USE:

**Stainless Steel Cleaner** is ideally applied by brush and will readily adhere to work surface. Contact time will vary with application, but normally 5 - 10 minutes will be adequate. Removal is by water rinse.

Ref. No. 11/17

## PRECAUTIONS:

Product is highly corrosive and skin contact should be avoided. Product contains Hydrofluoric acid. Keep out of reach of children.

Gloves, apron and goggles should be worn during application. Keep container tightly closed and away from sunlight.

## FIRST AID:

Eyes: Rinse eyes with cool running water. GET MEDICAL ATTENTION!

Internally: Drink large amounts of water. GET MEDICAL ATTENTION IMMEDIATELY!
